Profile

"There is no end to education. It is not that you read a book, pass an examination, and finish with education. The whole of life, from the moment you are born to the moment you die, is a process of learning."

Jiddu Krishnamurti.

A few words about me

Until now, in my life, I change from active moments with a lot of variety to improvisations, to moments of tranquility and stability, being difficult to long time. I consider myself a tolerant and respectful person with open mind. I really like to listen people stories and backgrounds and their different experiences in the world.

Philosophy

I believe in ethic and moral not in imposed rules that you "have to" do or not.

I believe life is made from different shades of grey, not from black and white. Furthermore, as a human being with rationality, I think it is our duty to take care of the world and respect others as one would like others to treat oneself. This way of perceiving reality affects my beliefs and my way of behaving. Summarizing on several points:

- Pragmatic
- Honest
- Respectful
- Open-minded
- Coherent
